NFL Season Performance Report

Report Type	NFL Season Standing & Predictive Analytics
Season	NFL 2025–26
Teams	All 32 NFL teams AFC + NFC Conference breakdown
Models	Pythagorean Win Analysis (exp=2.37) Conference KPI Comparison
Data Source	ESPN public API (site.api.espn.com)
Prepared By	Mboya Jeffers, Data Engineer
Generated	2026-06-03 00:12:48

SAMPLE REPORT — LIVE DATA

1. Executive Summary

- **League Overview:** 32 teams | 272 games played | 46.0 points per team per game (league average)
- **Best Record:** Seattle Seahawks (14-3) and 2 others | **Worst:** New York Jets (3-14) and 3 others
- **Pythagorean Overperformer:** Denver Broncos (+3.0 wins vs expected)
- **Pythagorean Underperformer:** Kansas City Chiefs (-3.5 wins vs expected)
- **Conference Balance:** AFC avg 8.4 W | 383 PPG — NFC avg 8.5 W | 399 PPG
- **Offense:** Los Angeles Rams leads (518 pts) | **Defense:** Seattle Seahawks leads (292 allowed)

2. KPI Dashboard

32 TEAMS TRACKED	46.0 AVG POINTS/GAME	0.200 WIN% STD DEV	0.35 PARITY INDEX
---------------------	-------------------------	-----------------------	----------------------

3. Complete NFL Standings — Pythagorean Analysis

Pythagorean wins use exponent 2.37 (NFL standard per Football Outsiders). Pyth Diff = Actual – Expected. Positive = overperforming expectations (regression risk). Streak shows current W/L run.

Rank	Team	Division	Record	Win%	PF	PA	Diff	Pyth W	Pyth Δ	Streak
1	Seattle Seahawks	National Football Conference	14-3	0.824	483	292	+191	13.0	+1.0	7.0
2	New England Patriots	American Football Conference	14-3	0.824	490	320	+170	12.5	+1.5	3.0
3	Denver Broncos	American Football Conference	14-3	0.824	401	311	+90	11.0	+3.0	2.0
4	Jacksonville Jaguars	American Football Conference	13-4	0.765	474	336	+138	11.8	+1.2	8.0
5	Los Angeles Rams	National Football Conference	12-5	0.706	518	346	+172	12.3	-0.3	1.0
6	Buffalo Bills	American Football Conference	12-5	0.706	481	365	+116	11.2	+0.8	1.0
7	Houston Texans	American Football Conference	12-5	0.706	404	295	+109	11.5	+0.5	9.0
8	San Francisco 49ers	National Football Conference	12-5	0.706	437	371	+66	10.1	+1.9	-1.0
9	Philadelphia Eagles	National Football Conference	11-6	0.647	379	325	+54	10.0	+1.0	-1.0
10	Los Angeles Chargers	American Football Conference	11-6	0.647	368	340	+28	9.3	+1.7	-2.0
11	Chicago Bears	National Football Conference	11-6	0.647	441	415	+26	9.1	+1.9	-2.0
12	Pittsburgh Steelers	American Football Conference	10-7	0.588	397	387	+10	8.8	+1.2	1.0
13	Detroit Lions	National Football Conference	9-8	0.529	481	413	+68	10.0	-1.0	1.0
14	Green Bay Packers	National Football Conference	9-7-1	0.559	391	360	+31	9.3	-0.3	-4.0
15	Minnesota Vikings	National Football Conference	9-8	0.529	344	333	+11	8.8	+0.2	5.0
16	Indianapolis Colts	American Football Conference	8-9	0.471	466	412	+54	9.7	-1.7	-7.0
17	Baltimore Ravens	American Football Conference	8-9	0.471	424	398	+26	9.1	-1.1	-1.0
18	Tampa Bay Buccaneers	National Football Conference	8-9	0.471	380	411	-31	7.7	+0.3	1.0
19	Atlanta Falcons	National Football Conference	8-9	0.471	353	401	-48	7.2	+0.8	4.0
20	Carolina Panthers	National Football Conference	8-9	0.471	311	380	-69	6.5	+1.5	-2.0
21	Dallas Cowboys	National Football Conference	7-9-1	0.441	471	511	-40	7.7	-0.7	-1.0
22	Miami Dolphins	American Football Conference	7-10	0.412	347	424	-77	6.5	+0.5	-1.0
23	Kansas City Chiefs	American Football Conference	6-11	0.353	362	328	+34	9.5	-3.5	-6.0
24	New Orleans Saints	National Football Conference	6-11	0.353	306	383	-77	6.3	-0.3	-1.0
25	Cincinnati Bengals	American Football Conference	6-11	0.353	414	492	-78	6.8	-0.8	-1.0
26	Washington Commanders	National Football Conference	5-12	0.294	356	451	-95	6.2	-1.2	1.0

Rank	Team	Division	Record	Win%	PF	PA	Diff	Pyth W	Pyth Δ	Streak
27	Cleveland Browns	American Football Conference	5-12	0.294	279	379	-100	5.5	-0.5	2.0
28	New York Giants	National Football Conference	4-13	0.235	381	439	-58	7.1	-3.1	2.0
29	Arizona Cardinals	National Football Conference	3-14	0.176	355	488	-133	5.4	-2.4	-9.0
30	Las Vegas Raiders	American Football Conference	3-14	0.176	241	432	-191	3.4	-0.4	1.0
31	Tennessee Titans	American Football Conference	3-14	0.176	284	478	-194	3.8	-0.8	-2.0
32	New York Jets	American Football Conference	3-14	0.176	300	503	-203	3.9	-0.9	-5.0

Source: ESPN public API — site.api.espn.com/apis/v2/sports/football/nfl/standings | PF=Points For, PA=Points Against, Pyth Δ=Pythagorean difference | Pulled: 2026-06-03 00:12:48

4. Conference Analysis — AFC vs NFC

Side-by-side comparison of AFC and NFC performance metrics. Conference averages derived from all 32 teams (16 AFC, 16 NFC).

AFC — American Football Conference		NFC — National Football Conference	
Average Wins	8.4	Average Wins	8.5
Avg Points For (PF)	383.2	Avg Points For (PF)	399.2
Avg Points Against (PA)	387.5	Avg Points Against (PA)	394.9
Avg Point Differential	-4.2	Avg Point Differential	+4.2
Teams	16	Teams	16

Conference Comparative Summary

Metric	AFC	NFC	Edge
Average Wins	8.44	8.50	NFC
Avg Points For (Offense)	383.2	399.2	NFC offense
Avg Points Against (Defense)	387.5	394.9	AFC defense (lower = better)
Avg Point Differential	-4.2	+4.2	NFC overall quality

5. Pythagorean Win Analysis — Regression Candidates

Teams with large Pythagorean differentials are statistically likely to regress toward expected win totals in subsequent seasons or game stretches.

Top 5 Overperformers (Regression Risk)

Team	Actual	Expected	Δ
Denver Broncos	14-3	11.0	+3.0
Chicago Bears	11-6	9.1	+1.9
San Francisco 49ers	12-5	10.1	+1.9
Los Angeles Chargers	11-6	9.3	+1.7
New England Patriots	14-3	12.5	+1.5

Won more games than point differential suggests — may regress.

Top 5 Underperformers (Bounce-Back Candidates)

Team	Actual	Expected	Δ
Washington Commanders	5-12	6.2	-1.2
Indianapolis Colts	8-9	9.7	-1.7
Arizona Cardinals	3-14	5.4	-2.4
New York Giants	4-13	7.1	-3.1
Kansas City Chiefs	6-11	9.5	-3.5

Underperformed point differential — statistically likely to improve.

6. Methodology & Data Sources

Component	Detail	Source
Standings Data	ESPN public API — all 32 NFL teams, current season	site.api.espn.com
Pythagorean Wins	$PF^{2.37} / (PF^{2.37} + PA^{2.37}) \times \text{Games}$ — NFL standard exponent (Football Outsiders)	Computed
Streak	Current consecutive W or L run as reported by ESPN standings API	ESPN
Parity Index	$1 - (\text{max win\%} - \text{min win\%})$ — higher value = more competitive league	Computed
Win% Std Dev	Standard deviation of win percentages from 0.500	Computed
Conference Analysis	Simple averages of W, PF, PA, Point Diff across conference members	Computed
Report Period	NFL 2025–26 — standings as of June 03, 2026	—

All data live from ESPN and independently verifiable at espn.com/nfl/standings | Pulled: 2026-06-03 00:12:48

Disclaimer & Disclosure: This report uses **live standings data from the ESPN public API** at generation time. "Baseline Sports Analytics" is a fictional brand used for demonstration — all underlying NFL data is real and independently verifiable at espn.com. Does not constitute gambling advice. Pythagorean win analysis is an established statistical methodology used by Football Outsiders, FiveThirtyEight, and major sports analytics firms.
